### GENERAL INFORMATION / TOOLS

#### **GENERAL INFORMATION:**

#### Preparation:

We recommend reading these instructions before starting.

Carefully unpack and check all items before beginning assembly.

When transporting assembled doors; always lift at corners and lean doors on their side – never stand them upright as this may damage the bottom roller.

The high quality raumplus family of sliding door systems offers a wide range of possibilities. Systems with or without bottom track, ceiling or wall mounted systems, corner solutions, locks, applied and true divided panels.

The "HOW TO INSTALL A SLIDING DOOR (S34 + S42)" describes the process of installing an S34 or S42 bottom rolling system.

For other instructions, please see:

HOW TO ASSEMBLE A SLIDING DOOR (S34 + S42)

Technical details are subject to change.

#### INFORMATION:

It is assumed that you have exactly identified all cutting dimensions according to the measurement instruction for raumplus-products.

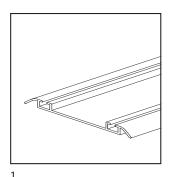

max. door weight: 180 kg [390 lbs]

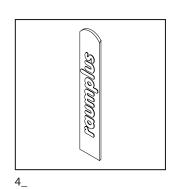

#### TOOLS:

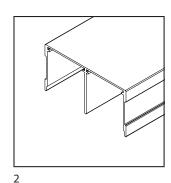

pencil and masking tape drill and drill bits screwdriver (phillips) metric allen-key set level white rubber mallet metal saw plumb-line (optional)

### TRACKS\_S34/S42

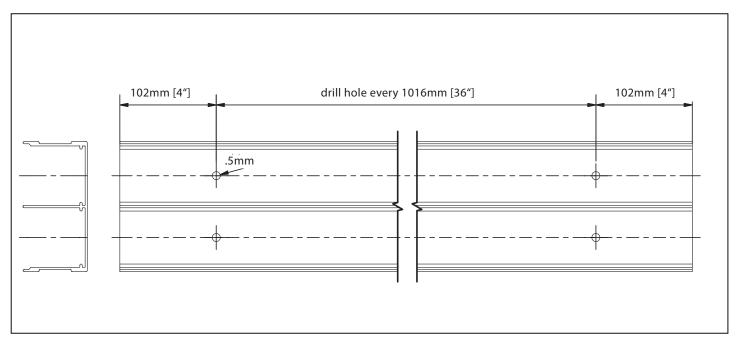

- 1\_ Bottom track\_supplied with double sided adhesive tape (if applicable). Bottom tracks ships 50mm [2"] over-sized to ensure tight fit, unless otherwise requested. (fig.1,Double surface track).
- 2\_Top Track\_to be mounted to ceiling. Top tracks ships 50mm [2"] over-sized to ensure tight fit unless otherwise requested. (fig.2, Double top track).
- 3\_ Brush gasket\_provides a dust seal between wall and door when applied to door stile. Optional rubber gasket may be specified instead of brush gasket.
- 4\_ Plugs\_adhesive plugs to cover frame and wheel-adjustment holes.

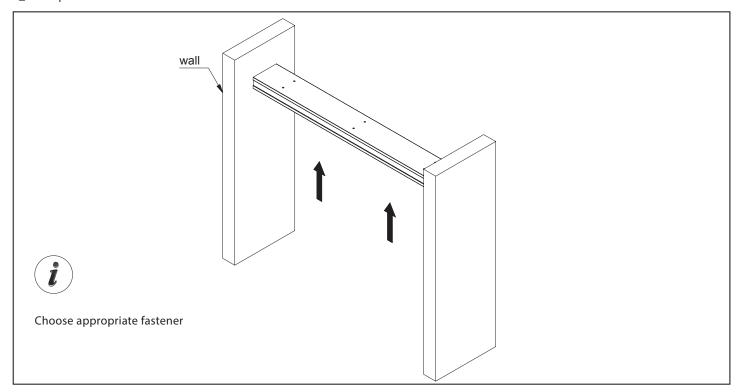

Note: Top and bottom tracks are available in many variations, please consult your product guide for details.

#### PREPARE / MOUNT TOP TRACK:

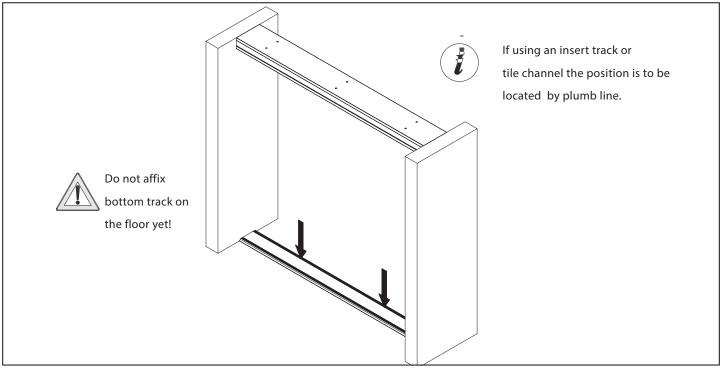

1\_ cut top track to final dimension and drill holes.

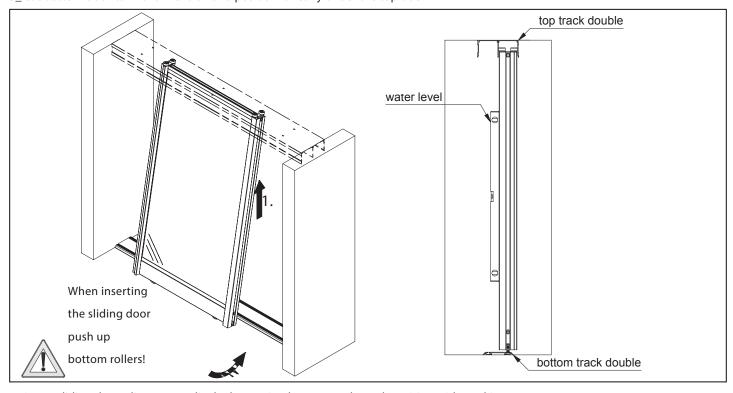

2\_ drill holes and mount top track (fig.2 without ceiling)

#### SHORTEN BOTTOM TRACK / MARK POSITION:

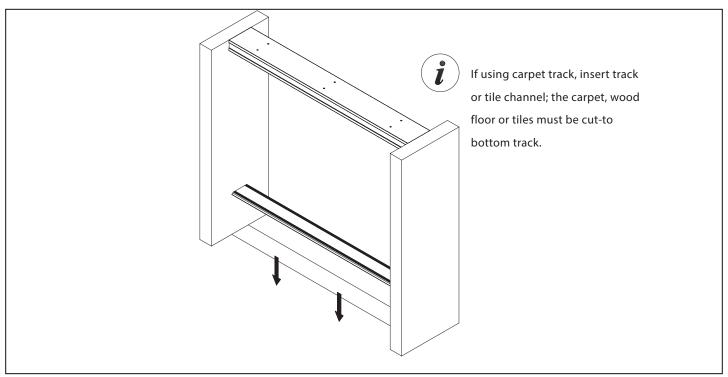

3\_ cut bottom track to final dimension and position it nearly under the top track

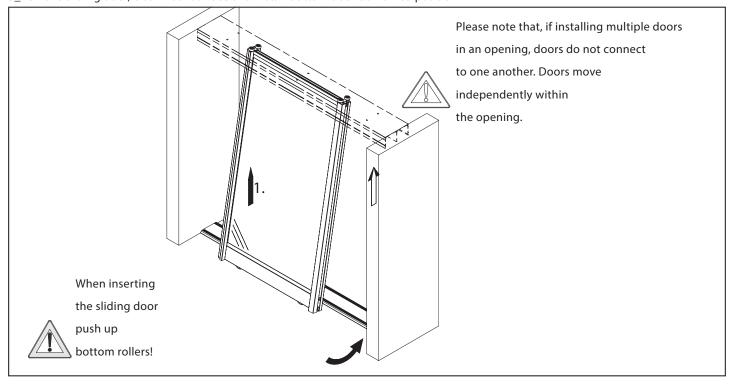

4\_ insert sliding door, align perpendicular by moving bottom track, mark position with masking tape

#### AFFIX BOTTOM TRACK / INSERT DOOR:

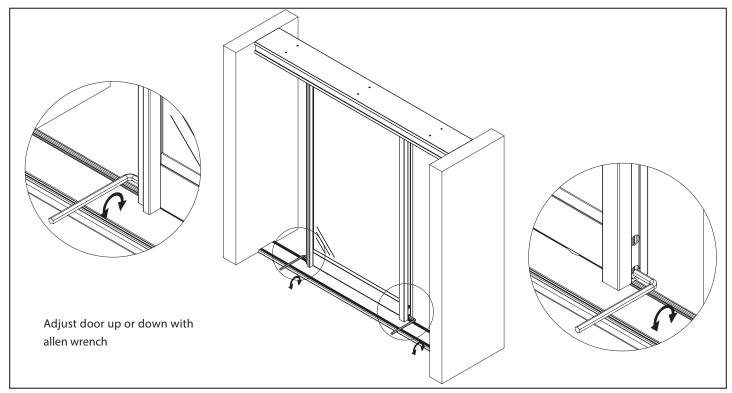

5\_ remove sliding door, clean floor surface and install bottom track at marked position

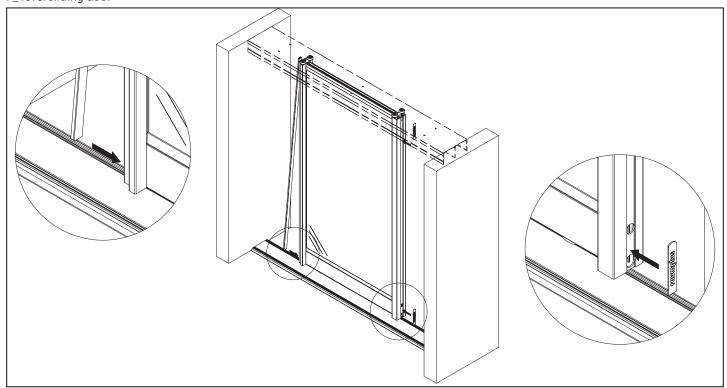

6\_ install sliding door

#### ADJUST DOOR / APPLY BRUSH GASEKET:

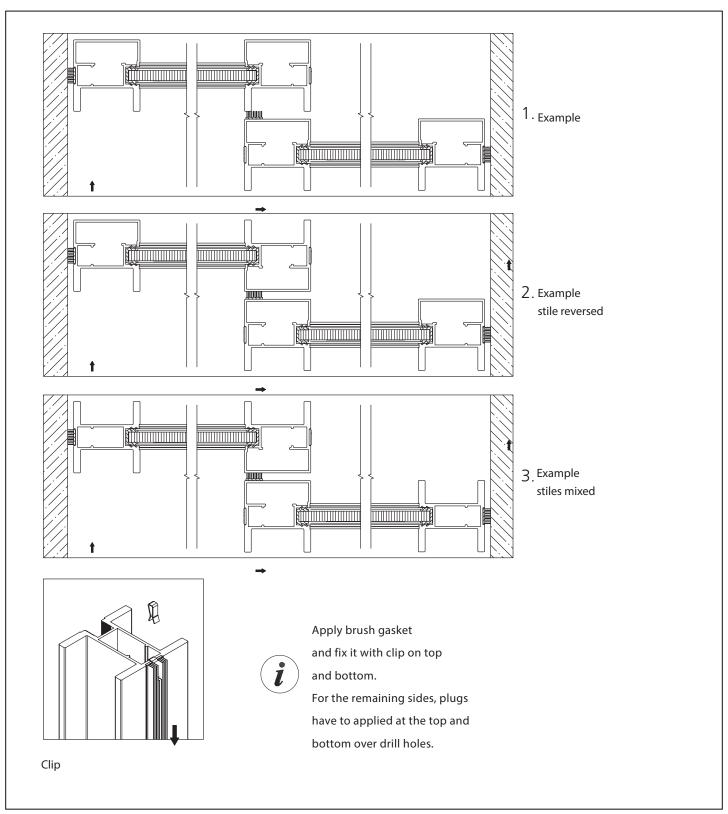

7\_ level sliding door

8\_ install plugs for punch holes and brush gasket (details see page 09)

#### POSITION FOR BRUSH GASKET:

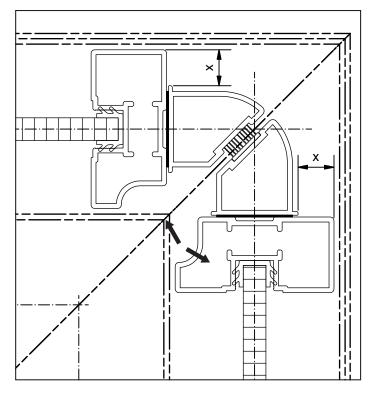

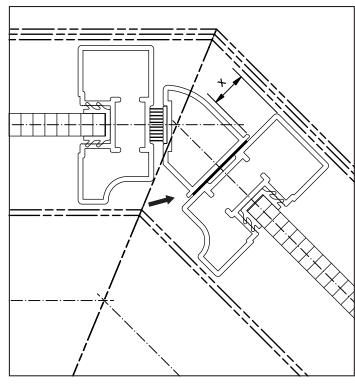

15\_ positions of brush gasket

## ASSEMBLY\_S34/S42

#### 90°- / 135°-CORNER SOLUTION:

2\_90°-corner solution (\$1500 shown)

3\_135°-corner solution (\$1500 shown)

30 [1 3/16"]

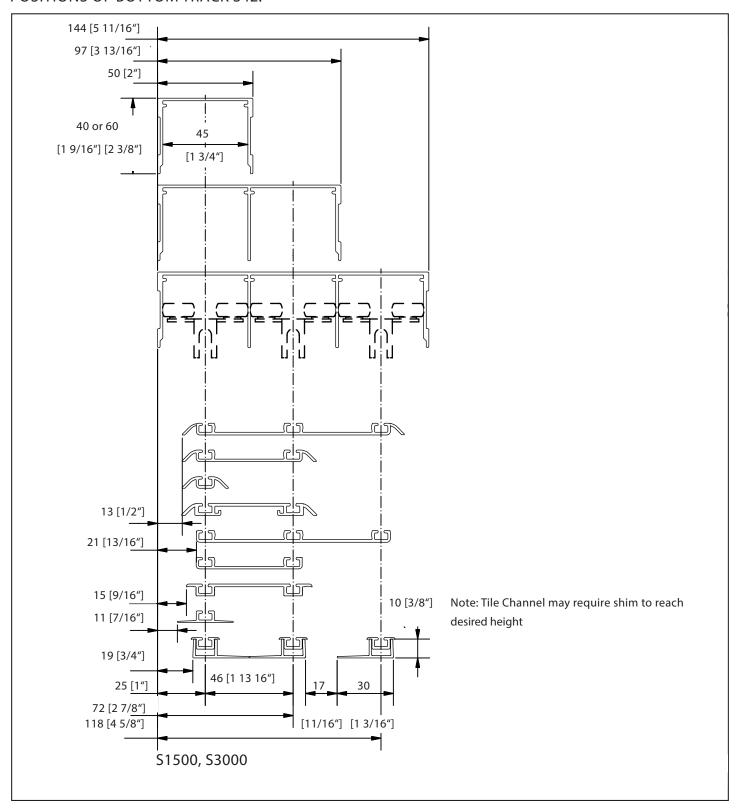

INFORMATION: The corner profiles are to be applied to the vertical profiles with double-sided adhesive tape. (fig.2 and 3).

At the 135°-corner solution only <u>one</u> corner profile is required.
